Results-oriented iOS Developer with 9+ years of experience building and shipping production mobile applications. Deep expertise in Swift, SwiftUI, and Combine with a strong focus on MVVM and protocol-oriented architecture. Currently building AI-powered features using Apple Intelligence and on-device Foundation Models at SAP Labs.

EXPERIENCE

SAP Labs Pvt Limited — Developer

Apr 2021 – Present

Bengaluru

- Spearheaded development of a new Sales app from scratch using SwiftUI and Combine, resulting in a 20% increase in sales team efficiency.
- Built an on-device AI accessibility agent using Apple Foundation Models and VoiceOver APIs, enabling visually impaired field sales reps to navigate the app fully hands-free.
- Developed a structure-understanding agent that parses customer account hierarchy, open deals, and visit history to surface contextually relevant data without manual navigation.
- Integrated SiriKit and the App Intents framework to enable voice-driven appointment and visit management, reducing manual data entry for reps working in the field.
- Implemented an Apple Intelligence pre-brief feature using on-device Foundation Models that auto-summarizes customer history, open pipeline, and prior visit notes before each appointment — cutting meeting prep time significantly.
- Implemented Caller ID and SSO Sign-In features, enhancing user experience and security.
- Architected the app using MVVM and protocol-oriented programming, improving code maintainability and testability.
- Resolved incidents in a hybrid Cordova app (Objective-C & JavaScript), ensuring seamless user experience.
- Wrote comprehensive unit tests and actively participated in code reviews on GitHub, contributing to a 15% reduction in bug reports.

Quess Corp Limited — iOS Developer

May 2020 – Apr 2021

- Developed key features for the Sales app using OData and RxSwift, improving data synchronization speed by 25%.
- Resolved critical incidents in a hybrid application, minimizing downtime and ensuring business continuity.
- Enhanced application reliability by adding comprehensive unit tests, reducing crash rates by 10%.

CognitiveClouds Software Pvt Limited — Software Engineer

Oct 2019 – Mar 2020

- Developed video call and screen sharing features, increasing user engagement by 30%.
- Implemented push notifications and UI testing, improving user retention and app stability.
- Successfully deployed the application to the App Store.

Mobi Serve Pvt Ltd (Micromax Informatics) — iOS Developer

Jul 2018 – Oct 2019

- Built an OTT video streaming app using AVPlayer, delivering a high-quality viewing experience.
- Implemented analytics and a WiFi-enabled protocol server, providing insights into user behavior.
- Integrated IoT (Raspberry Pi) for content fetching, enabling innovative content delivery methods.

Vayam Technologies Limited — Software Engineer

Nov 2017 – Jul 2018

- Developed an Employee Management app, streamlining internal HR processes.
- Integrated REST APIs and a news posting feature, enhancing communication within the organization.

Visit Internet Services Pvt Ltd — iOS Developer

Jun 2016 – Oct 2016

- Developed a telehealth app with in-app messaging and payments.
- Integrated PubNub SDK and Paytm Wallet for real-time communication and secure payment processing.

Quickli Technologies Pvt Limited — iOS Developer

Dec 2014 – May 2016

- Developed a delivery order app in Swift and Objective-C, improving the delivery process and customer satisfaction.
- Integrated Firebase analytics and Razorpay payment gateway.

SKILLS

Core: Swift, SwiftUI, Combine, Objective-C	Architecture: MVVM, Protocol-Oriented Programming
AI / Platform: Apple Intelligence, Foundation Models, SiriKit, App Intents, VoiceOver	Data / APIs: REST APIs, OData, JSON, RxSwift
Tools: Xcode, Git, GitHub, JIRA, ServiceNow	Analytics / Payments: Firebase, Razorpay, Paytm
Other: React Native, Java, JavaScript, SDK Integration	

EDUCATION

Uttar Pradesh Technical University (UPTU), Mathura
B.Tech – Information Technology | 2013
